

# Marine Debris Sort Report

**April 2022**

Following each beach and underwater cleanup, LMC's conservation department sorts and analyzes the debris collected. In the month of April, volunteers conducted beach cleanups in Juno Beach, FL. The debris removed during the cleanup was sorted and data collected in alignment with best practices as outlined by our partners at NOAA and the Ocean Conservancy.

**898**

volunteers

**16**

cleanup

**833.675**

pounds

**31,364**

pieces of debris

Figure 1. Unusual items found during the cleanup included a screw driver and a gas tank

## HOW CAN YOU HELP?

**Help keep our sea turtles safe – especially during nesting season by “Respecting the Locals”**

Fill in holes and knock down sandcastles. These create obstacles for sea turtles coming to and from the ocean!

Turn off lights and keep shades shut! Bright lights can disorient sea turtles.

Remove all items. Including Trash! Debris items can entangle and block turtles on their way to the ocean.

## TOP 5 ITEMS COLLECTED

Figure 2. Top 5 items collected in April, 2022.

Figure 3. 68% of all debris removed was plastic.
